MESSAGE FROM THE MAYOR

Mayor Robert Bell

I bring to you the 2022 – 2031 Uralla Shire Community Strategic Plan. It is the people's plan, and offers a combined vision for the Shire's progression over the next 10 years.

This plan reflects the feedback – from around 1700 individual conversations and submissions – that Council has received since the beginning of 2021. I'd like to thank all those who have put forward their ideas.

The creation of the document is coordinated by Uralla Shire Council, in its role as caretaker of the Shire, and seeks to capture both the State and Regional context as relevant to our Shire and the aspirations of the community.

*As we strive forward, may we always hold dear and protect the values that make this part of the world so wonderful.
The heritage, the environment, and the community spirit...along with the potential.*

The Community Strategic Plan has a 10 year outlook, and it is refreshed with each new term of Council, to help guide us in our strategic decision making.

From this, too, Council develops its four year Delivery Plan and the annual Operational Plan and Budget.

Every project undertaken is also cross-checked against the Community Strategic Plan, to keep our operations aligned with this bigger picture. You will see these strategies referenced at the top of every report to a Council meeting.

As we strive forward, may we always hold dear and protect the values that make this part of the world so wonderful.

The heritage, the environment, and the community spirit...along with the potential.

Mayor Robert Bell

PART 1: REGIONAL AND STATE CONTEXT

1.1 SUMMARY

The Community Strategic Plan (CSP) is the highest-level plan that a council will prepare. The purpose of the Plan is to identify the community's main priorities and aspirations for the future and to plan strategies for achieving these goals. In doing this, the planning process will consider the issues and pressures that may affect the community and the level of resources that will realistically be available to achieve the community's aims and aspirations.

While a council has a custodial role in initiating, preparing and maintaining the Community Strategic Plan on behalf of the local government area, it is not wholly responsible for its implementation¹.

Other partners, such as state agencies, non-government organisations, business and industry, joint organisations and community groups may also be engaged in delivering the strategies of the Plan².

1.2 SOCIAL JUSTICE PRINCIPLES

The CSP must be based on the social justice principles³. The concept of social justice involves finding the optimum balance between our joint responsibilities as a society and our responsibilities as individuals to contribute to a just society⁴. There are four interrelated principles of social justice; access, equity, rights and participation.

- **Access** (*greater equality of access to goods and services*)
- **Equity** (*overcoming unfairness caused by unequal access to economic resources and power*)
- **Rights** (*equal effective legal, industrial and political rights*)
- **Participation** (*expanded opportunities for real participation in the decisions which govern their lives*)⁵

1.3 ALIGNMENT WITH STATE AND REGIONAL PLANS

The Community Strategic Plan is required to align with state and regional plans⁶.

1.3.1 NSW PREMIER'S PRIORITIES

These priorities represent the government's commitment to making a significant difference to enhance the quality of life of the people of NSW⁷.

They aim to tackle many of the issues that have been put in the too hard basket, for too long⁸. Each priority has an ambitious target⁹. They have been set with the purpose of delivering on the government's key policy priorities, being:

- *a strong economy,*
- *highest quality education,*
- *well-connected communities with quality local environments,*
- *putting the customer at the centre of everything we do, and*
- *breaking the cycle of disadvantage*¹⁰

1.3.2 REGIONAL NSW PRIORITIES

The State Government has set the following vision:

Regional NSW is an economic powerhouse and the backbone of the state's economic success¹¹.

A 20-year Economic vision for Regional New South Wales (February 2021) identifies the following relevant to Uralla Shire:

EMERGING SECTORS

Renewable energy and gas

The NSW Government is working toward a reliable, affordable and sustainable energy future that supports a growing economy, giving energy-intensive industries such as manufacturing the certainty to set up in regional locations.

Technology-enabled primary industries

Boosting internet capacity and extending access to mobile services that will improve connectivity and lift productivity and growth in regional businesses.

FUTURE INDUSTRIES

Critical minerals

Technological change is driving global demand for critical minerals and, as demand grows, there are significant economic opportunities for NSW.

Ecotourism

Regional NSW's offering spans outback, country, coastal, island and subtropical regions and is home to sites of unique Aboriginal cultural and historical significance.

Recycling and waste management

The NSW Government is investigating opportunities to grow regional NSW's circular economy, leveraging the availability of lower cost land and a rapidly changing global waste management system.

High quality food products

Regional NSW's highly productive farmland and diverse growing conditions provide opportunities to maximise the potential of the state's agricultural production by driving value-add in the food technology sector.

NEW INVESTMENT AREAS

Visitor economy infrastructure

To support regional economies to leverage their existing endowments to attract additional visitors, focusing on eco-tourism and place-based investments.

1.3.2 REGIONAL NSW PRIORITIES (CONTINUED)

Affordable and accessible energy

To induce investment in manufacturing and other energy intensive industry, including support for domestic gas as well as continued support for Renewable Energy Zones.

50 new priorities

To accelerate economic potential through investments in common user infrastructure, digital connectivity, tourism, education and skills, and major place-based investments such as Special Activation Precincts and Renewable Energy Zones.

The most relevant to USC include:

Infrastructure: freight linkages

- **NSW Transport** – via NEJO: North West pilot project: Customer Journey Resilience

The Regional Digital Connectivity

- **Mobile Coverage** – to eliminate mobile black spots where people live and work through investment in resilient mobile phone infrastructure and emerging technologies to deliver future-proof regional mobile coverage
- **Gig State** – to bring metro-level internet speeds to regional NSW through investment in network infrastructure including data hubs; and
- **Farms of the Future** – to enable farmers and agribusinesses to use agricultural technologies (ag tech) for increased productivity and resource management such as water monitoring

Renewable energy zones

\$120 million for Renewable Energy Zones (REZ) in the Central West, New England and South West regions to unlock a significant pipeline of large-scale renewable energy and storage projects, which will support up to \$23 billion of private sector investment and up to 2,000 construction jobs each year.

To date, \$40 million has been committed to the Central-West Orana region pilot and a further **\$79 million has been committed for the New England REZ¹²**.

1.3.3 NEW SOUTH WALES ABORIGINAL LAND COUNCIL STRATEGIC PLAN

The New South Wales Aboriginal Land Council (NSWALC) has a statutory objective to improve, protect and foster the best interests of Aboriginal people in NSW¹³. The NSWALC has set five goals to achieve this in its Strategic Plan 2018-2022¹⁴:

- *Secure our land and water rights*
- *Protect our culture and heritage*
- *Pursue economic independence and prosperity for our people*
- *Support our people*
- *Secure our future¹⁵*

1.3.4 NEW ENGLAND NORTH WEST REGIONAL PLAN 2041

The New England North West Regional Plan 2036¹⁶ is the NSW Government's strategy for guiding land-use planning decisions for the New England North West. The first New England North West Regional Plan 2036 had four goals:

- *A strong and dynamic regional economy*
- *A healthy environment with pristine waterways*
- *Strong infrastructure and transport networks for a connected future*
- *Attractive and thriving communities¹⁷*

The State Government reported good progress against the plan in its Regional Planning Monitoring Report 2019¹⁸.

Consistent with the State Government's directions, Uralla Shire Council developed its first Local Strategic Planning Statement¹⁹ (LSPS) in 2020-2021 and this Community Strategic Plan aligns with the LSPS.

The draft New England North West Regional Plan 2041 was on public exhibition at the time of preparing this Uralla Shire Community Strategic Plan. It contains 22 objectives, many of which translate into the LSPS. The Community Strategic Plan goals and objectives are consistent with the new Regional Plan.

3.4 OVERVIEW OF INTEGRATED PLANNING & REPORTING FRAMEWORK

Council uses the Integrated Planning and Reporting (IPR) Framework to guide, plan, prioritise and report on Council activities. In September 2021, the Office of Local Government drafted new [guidelines](#) to support the Integrated Planning and Reporting Framework; the guidelines were updated to reflect legislative changes.

Councils operate in a complex environment, with responsibilities under 67 different Acts, and direct relationships with more than 20 state and commonwealth agencies. Local Government planning connects with the wider spheres of regional, state and federal planning and there is a natural flow between the planning systems, with each level ultimately informing the others.

Council has identified key strategic planning work that needs to be undertaken to support the Community Strategic Plan – for example the Disability Inclusion Action Plan. These plans sit below the Community Strategic Plan in the IPR hierarchy and reflect the principles, values and objectives of the Community Strategic Plan. The plans may, in turn, inform the Resourcing Strategy, Delivery Program and Operational Plan, as appropriate. Beyond the Community Strategic Plan, there are state and regional planning frameworks that may inform, and be informed by, the work undertaken by councils through IPR. The Framework allows Council to draw on various plans together so that they dovetail, inform and interact seamlessly. The outcome is to get the maximum benefit for Council's efforts by planning holistically for the future. The main components of the Framework are outlined below:

COMMUNITY STRATEGIC PLAN

This is the highest level of strategic planning undertaken by Council, with a ten-year plus timeframe. All other plans must support achievement of the Community Strategic Plan objectives.

RESOURCING STRATEGY

This Strategy shows how Council resources its strategic priorities, identified through IPR. The Resourcing Strategy includes 3 inter-related elements:

- ✓ Long-Term Financial Planning
- ✓ Workforce Management Planning
- ✓ Asset Management Planning

DELIVERY PROGRAM

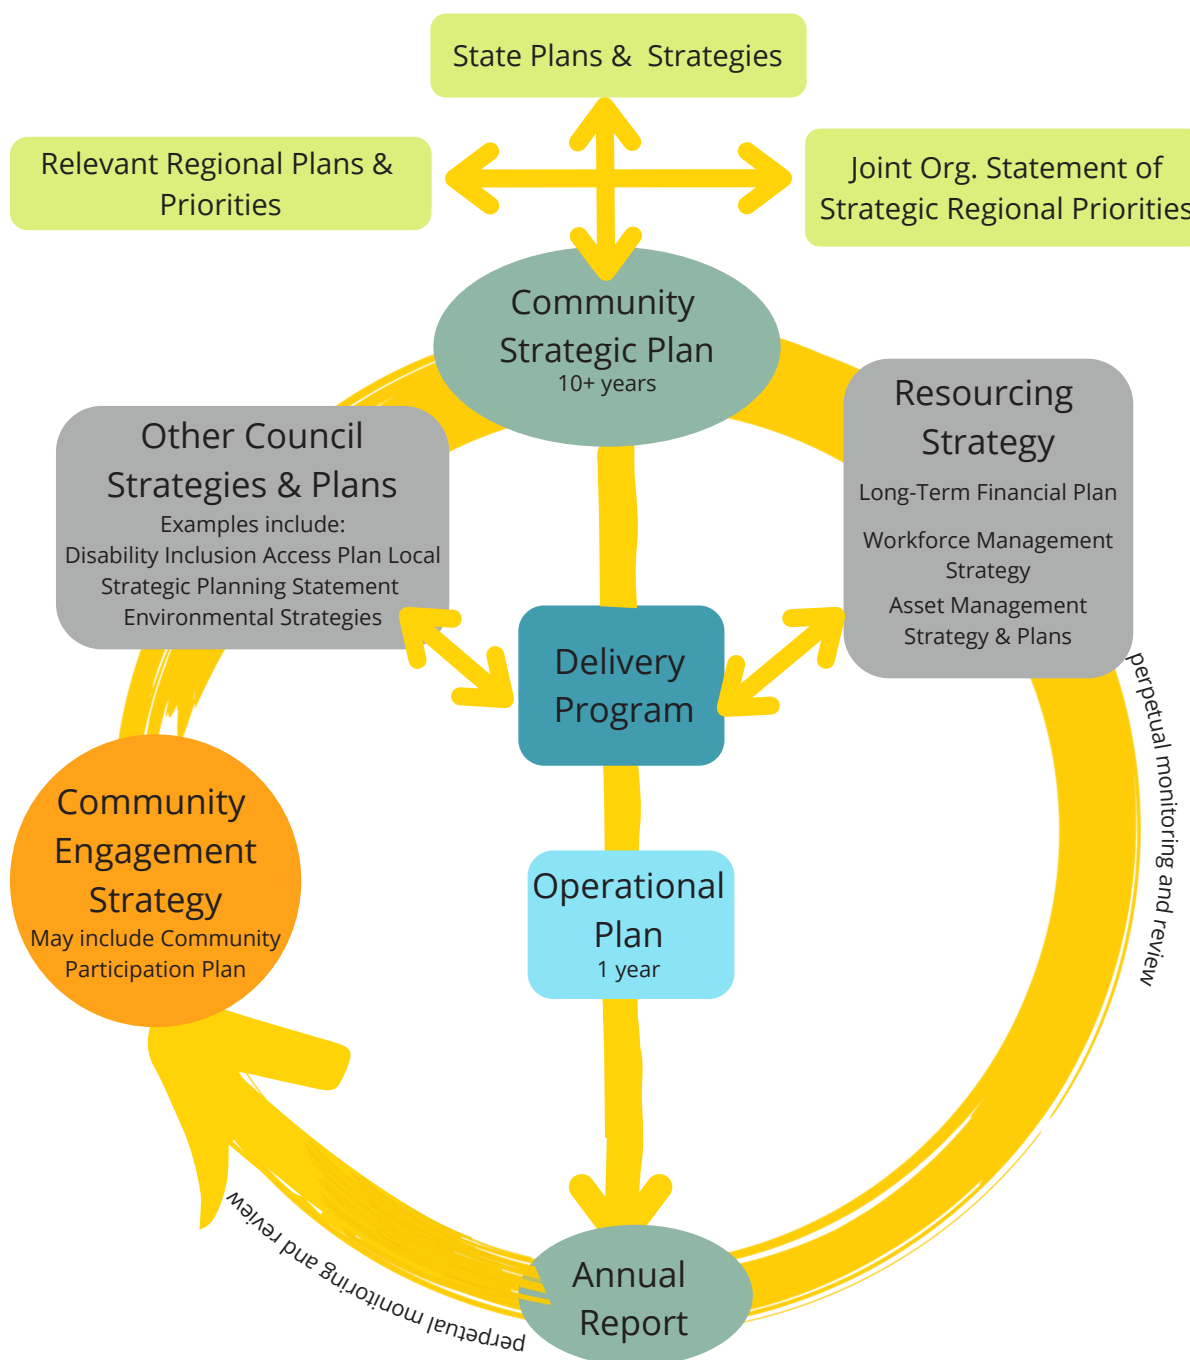

The Delivery Program is generally a four year plan that aligns with Councillors' term. This document is Council's commitment to the community about what it will deliver during its term in office to achieve the Community Strategic Plan objectives.

OPERATIONAL PLAN

The Operational Plan is a one year plan and shows the individual projects and activities a Council will undertake in a specific year. It includes Council's annual budget and Statement of Revenue Policy.

ANNUAL REPORT

The Annual Report informs the community on the work undertaken by Council in a given year to deliver on the commitments of the Delivery Program via that year's Operational Plan. Council also reports on its financial and asset performance against the annual budget and longer-term plans.

3.5 COMMUNITY STRATEGIC PLAN ENGAGEMENT SUMMARY

Council noted the following communications and engagement plan for the review of the CSP and development of the next version of the CSP at its 23 November 2021 Ordinary Meeting.

COMMUNICATIONS & ENGAGEMENT PLAN OVERVIEW

INTRODUCTION

The Community Strategic Plan is the Community's document – a combined vision for the future from which the Development and Operational Plans can be developed. A robust engagement plan will enable it to effectively stimulate and capture ideas to contribute to the next reiteration of this plan.

AIM

1. Create a range of opportunities for community input
2. To generate and capture interest in future planning for Uralla Shire
3. To test, validate and re-create current goals for the contemporary setting
4. To meet requirements for public exhibition

SCOPE OF ENGAGEMENT

To harness the vision of Uralla Shire residents and ratepayer community for their Shire.

LEVEL OF ENGAGEMENT

For the majority of Stakeholders, the proposed level of engagement is centred on INVOLVE (incorporating inform and consult).
